Profile

I am an undergraduate at the Faculty of Information Technology, University of Moratuwa, with a strong commitment to learning and a passion for adapting to new technologies. I excel in teamwork and communication, which helps me build solid professional relationships. Eager to leverage these strengths in a real-world context, I am seeking an **internship in Software Engineering** to further enhance my skills and contribute meaningfully to a dynamic team.

Projects

eCop-Digitel Traffic fine Solution 🔗 github/eCop

📅 Sep 2024 - Present   **Project Role: Full Stack Developer**

- App for digitizing SriLanka's traffic fine system.
- Allowing drivers to pay fines online and eliminating paper fines and license confiscation

Technologies : React, React Native, Spring Boot, and MongoDB.

TransitGO - Bus Transport Management System 🔗 github/transit

Collaborated with London Stock Exchange Group (LSEG)

📅 Dec 2023- July 2024   **Project Role: Full Stack Developer**

- A comprehensive bus transport management system for bus companies.
- Implemented Bus Delay Management and Bus location Tracker
